

Hot Rolled Re-draw Rod

The unique hot rolled re-draw process at Kaiser Aluminum's Newark facility is capable of producing a wide range of alloy and diameter combinations. This high strength product serves many applications in the aerospace, automotive, electrical, general engineering, and truck trailer markets.

ALLOY AVAILABILITIES

2011, 2014, 2017, 2024, 2117,
2219, 2224
4032, 4145
5052, 5056, 5083
6040, 6053, 6061
7050, 7075, 7175, 7178, 7475

Other registered alloys may be available
through special inquiry.

DIAMETER AVAILABILITY

3/8", 7/16", 1/2", 9/16", 5/8", 3/4", 7/8"

TEMPER AVAILABILITY

O and F

PACKAGING

220 lb coils on stems
2000 lb welded Jumbo Coils
5000 lb welded Jumbo Coils
